

February 16, 2006

This is to certify that the MARCO S-1141 Black and White Marking Inks, and S-1141 Ink Thinner, meet RoHs regulations. Their specifications are as follows:

1	Cadmium	< 1ppm
2	Hexavalent Chromium	None
3	Lead	< 20ppm
4	Mercury	w2ppm
5	PBB	0ppm
6	PBDE	0ppm
7	TBBP-A BIS	0ppm
8	Brominated Organic Compounds	None
9	Organic Compounds	None
10	PCB's	None
11	PCN	None
12	CP	None
13	Mirex	None
14	Chlorinated Organic Compounds	None
15	Short Chain Paraffin Chloride (C10-13)	None
16	Azo Dyes	None
17	Amine Compounds	None
18	Ozone Depleting Substance	None
19	Asbestos	None
20	PVC	None
21	Formaldehyde	None

None of these materials are intentionally added to the finished ink. They are inherent in the dye colors that are used.

The Marco S-1141 black or white ink formulation has not changed in 20 years.
